

WALL HUNG SMART TOILET E30

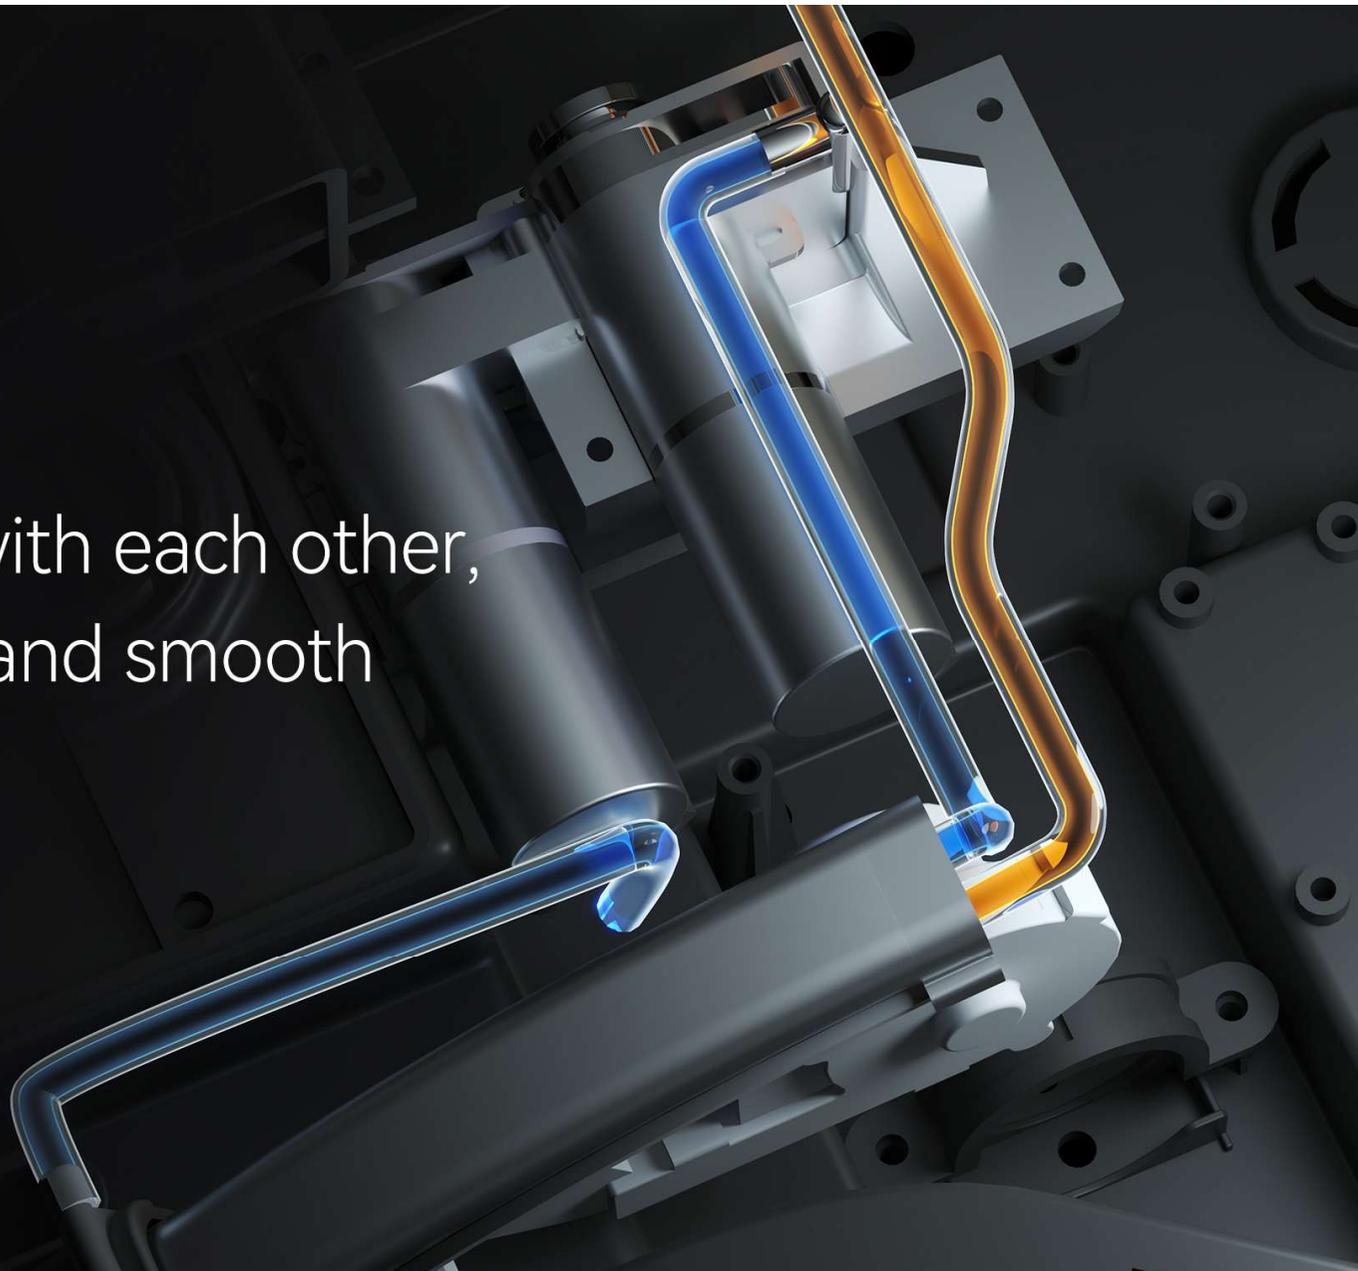

Tribute to minimalist aesthetics
Reconstruct spatial dimension

OPEN UP NEW IDEAS IN DESIGN
INTELLIGENT HANGING TOILET

A modern bathroom interior is shown in a dimly lit setting. On the left, a white smart toilet with a bidet seat is visible, featuring a control panel on the side. To its right stands a sleek, cylindrical bidet with a metallic top and a glowing orange light band. The background reveals a large window with a view of a dark coastline and the ocean under a twilight sky. A small vase with a plant is visible on a shelf to the left of the toilet.

This product,
Achieving a perfect balance
between intelligence
and aesthetics.

Working in synergy with each other,
Create an intelligent and smooth
experience system.

Unexpected Encounters in Life

All of them are small and shining decorations

Responding to sensory demands in multiple scenarios,
Redesign more features around user concerns.

Suspended design
Break through
limitations

Concealed water tank
Optional
installation

Seasonal temperature
sensation
AI temperature control

Sedentary reminder
Thoughtful tips

Built-in bubble
Free access and
placement

Disassembly nozzle
ABS antibacterial

01 Wall hung smart toilet- wall mounted

Suspended off the ground Optimized space

Innovative and beautiful
Spatial smart layout

Levitate off the ground, Farewell blind corner
Minimalist line, Reshape space

02 Wall hung smart toilet - Space aesthetics

Hidden hydropower Traceless design

Blend into the wall
Space-saving and beautiful

Adjustable height
Not limited by unit type

03 Wall hung smart toilet - Innovative water tank

Innovative smart water tank Make full use of space

The wall only needs to be embedded with supports
The slot area is small

Reduce decoration costs
Better use of wall space

Zero pressure limit Adapt to water pressure environment

Whether in high-rise buildings with low water pressure, this smart toilet can operate stably and always maintain excellent flushing effect. No additional water pressure boosting device is required, users only need to use it with peace of mind to enjoy an efficient and smooth flushing experience. Each flush is precise and powerful, quickly cleaning the inner wall of the toilet, avoiding blockages or unclean flushing caused by water pressure issues.

Tall buildings

Old community

Peak water usage

04 Wall hung smart toilet - zero pressure limit

No water pressure limit Ceramic body built-in water tank

Built-in large capacity water tank and booster pump
Zero water pressure instant scouring, integrated design saves space

At the same time, it is suitable for high-rise old residential use
During peak water use, power outages are not affected

05 Wall hung smart toilet -external power supply

Use an external power supply Water flushing even the power cut

Innovative power outage flushing technology
External power supply in case of power failure

Connect the standby mobile power supply
Flush function can be used as usual

06 Wall hung smart toilet - intelligent toilet with dual flush system

Automatic recognition Intelligent toilet with dual flush system

Intelligent dual flush system with automatic recognition
It can effectively avoid wasting water resources

Half flush

seating < 30S
flushing 10S after leaving the seat

Full flush

seating > 30S
flushing 10S after leaving the seat

07 Wall hung smart toilet - weight bearing

Can bear a load of up to 400KG

Embedded steel frame bearing
Load-bearing capacity up to 400KG

No need for embedded water tank in the wall
Effectively avoid water tank rupture
brings the risk of large-scale water seepage
Easier maintenance

08 Wall hung smart toilet - hovering with no blind spots

Suspended base No blind spots during cleaning

High aesthetic "floating" design

The robot sweeper went through the level at will

Floating design enhances the sense of visual space

No longer bound by space, redefine life

09 Wall hung smart toilet - lipless design

Lipless design Clean with a wipe

Clean visibility with no obstructions
Practical rimless design

Leaves no chance for dirt to hide
Easy cleaning with no blind spots

10 Wall hung smart toilet - Detachable nozzle

ABS antibacterial spray rod removable nozzle

The nozzle is made of nano antibacterial material and can be freely disassembled and cleaned.

It can be replaced independently when used by multiple people without worrying about cross-infection.

Six smart cleaning modes

GENTLE BIDET
Intimate care

CLEANSING BUTTOCKS
Deep cleaning

AUTOMATIC CLEANING
Expand scope

CHILDREN'S CLEANING
Soft water flow

SELF-CLEANING SPRAY BOOM
Self cleaning

NOZZLE DISASSEMBLY
Regular cleaning

11 Wall hung smart toilet - foam shield

Dense bubbles Anti-bacterial and anti-splash

Effective blocking of odor details, reduce fouling adhesion
When go to the toilet, the dirt will not splash butt

Built-in foam bottle

Open cover plate for
easy replacement
Save space and don't spill

External foam bottle

Increase bacterial growth
Tedious and troublesome
to maintain

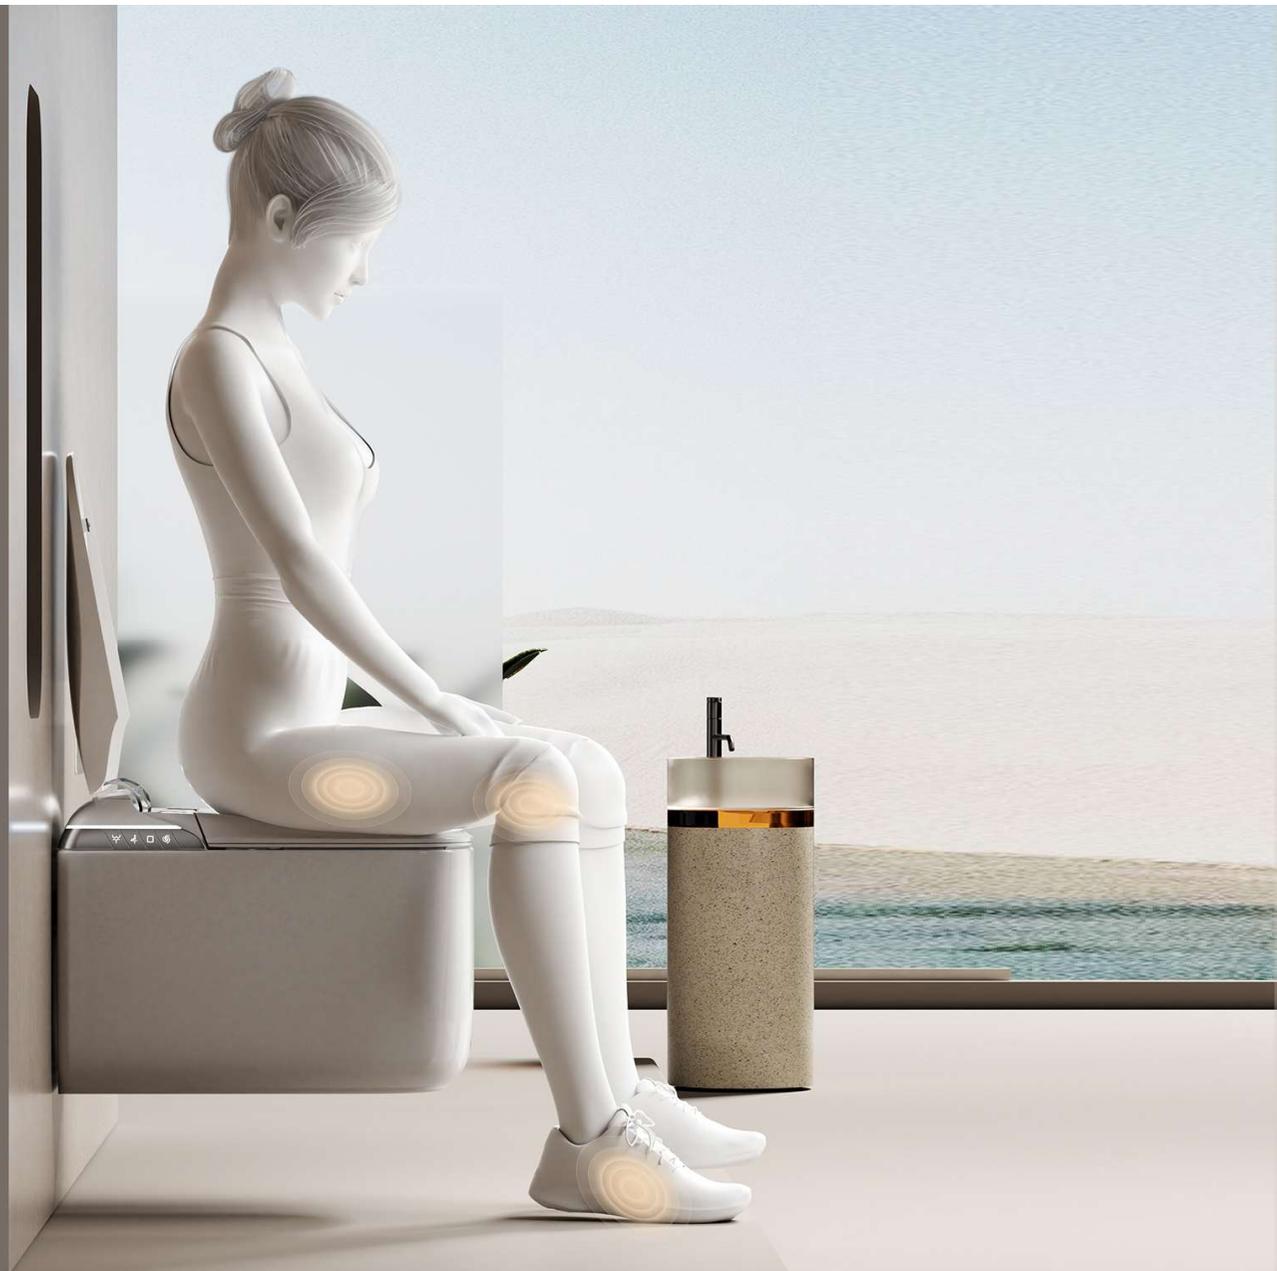

12 Wall hung smart toilet - Sedentary reminder

Sedentary voice reminders Time to remind

Induction seat start timing
More than 30 minutes of voice alerts

Prevent sitting from causing physical discomfort
Care for your health

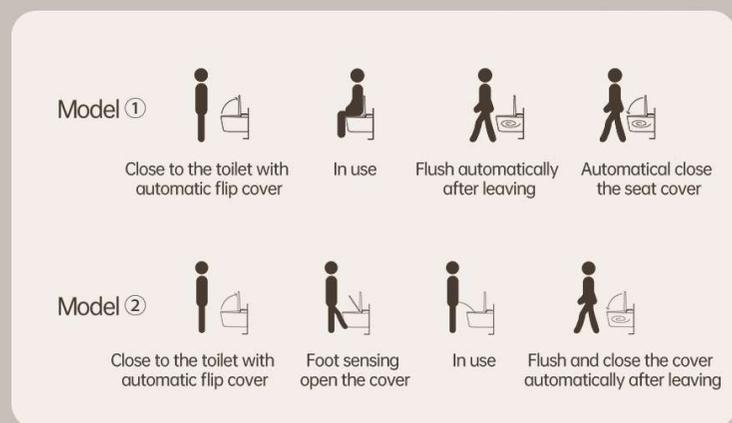

13 Wall hung smart toilet - automatic induction

Close to active open cover First time induction

Automatic sensing + foot sensing

Adjustable sensing distance, more accurate sensing of the human body closer

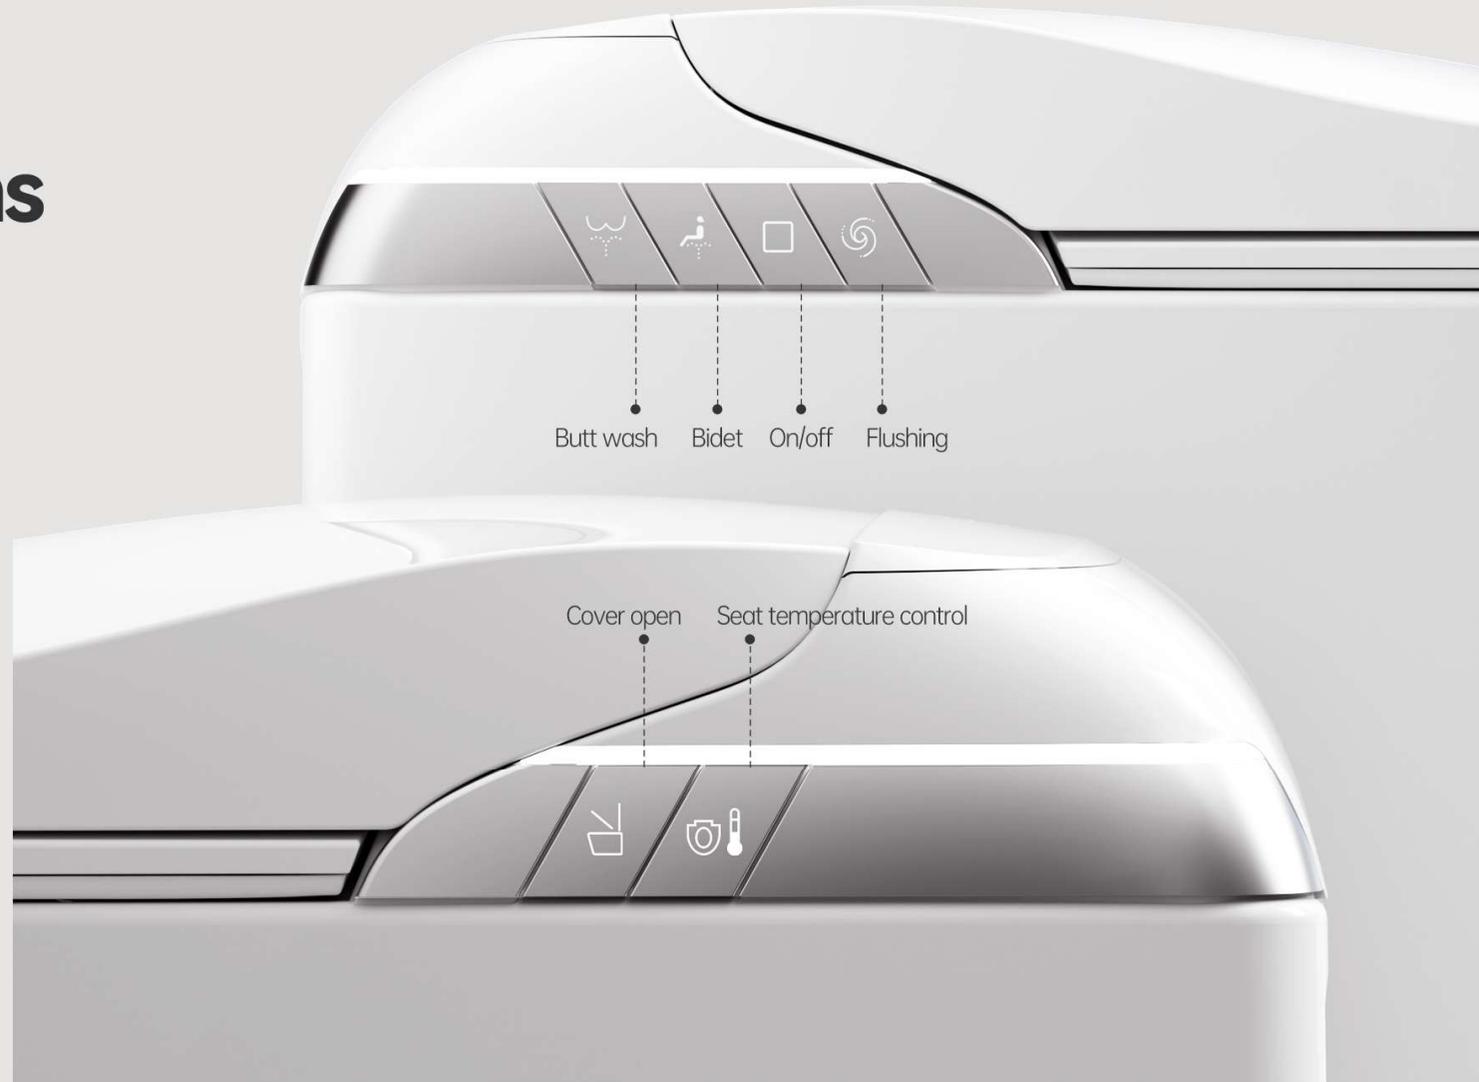

15 Wall hung smart toilet- Side button

Double buttons on the side, easy to use

Embedded inside cover,
easy to press

Operation clear icon identification,
easy to understand and get started

16 Wall hung smart toilet – constant temperature in four seasons

Seasonal temperature sensation Constant temperature companion

No artificial control
Spring, summer, autumn and winter all wise control

Make you feel
Constant comfortable temperature

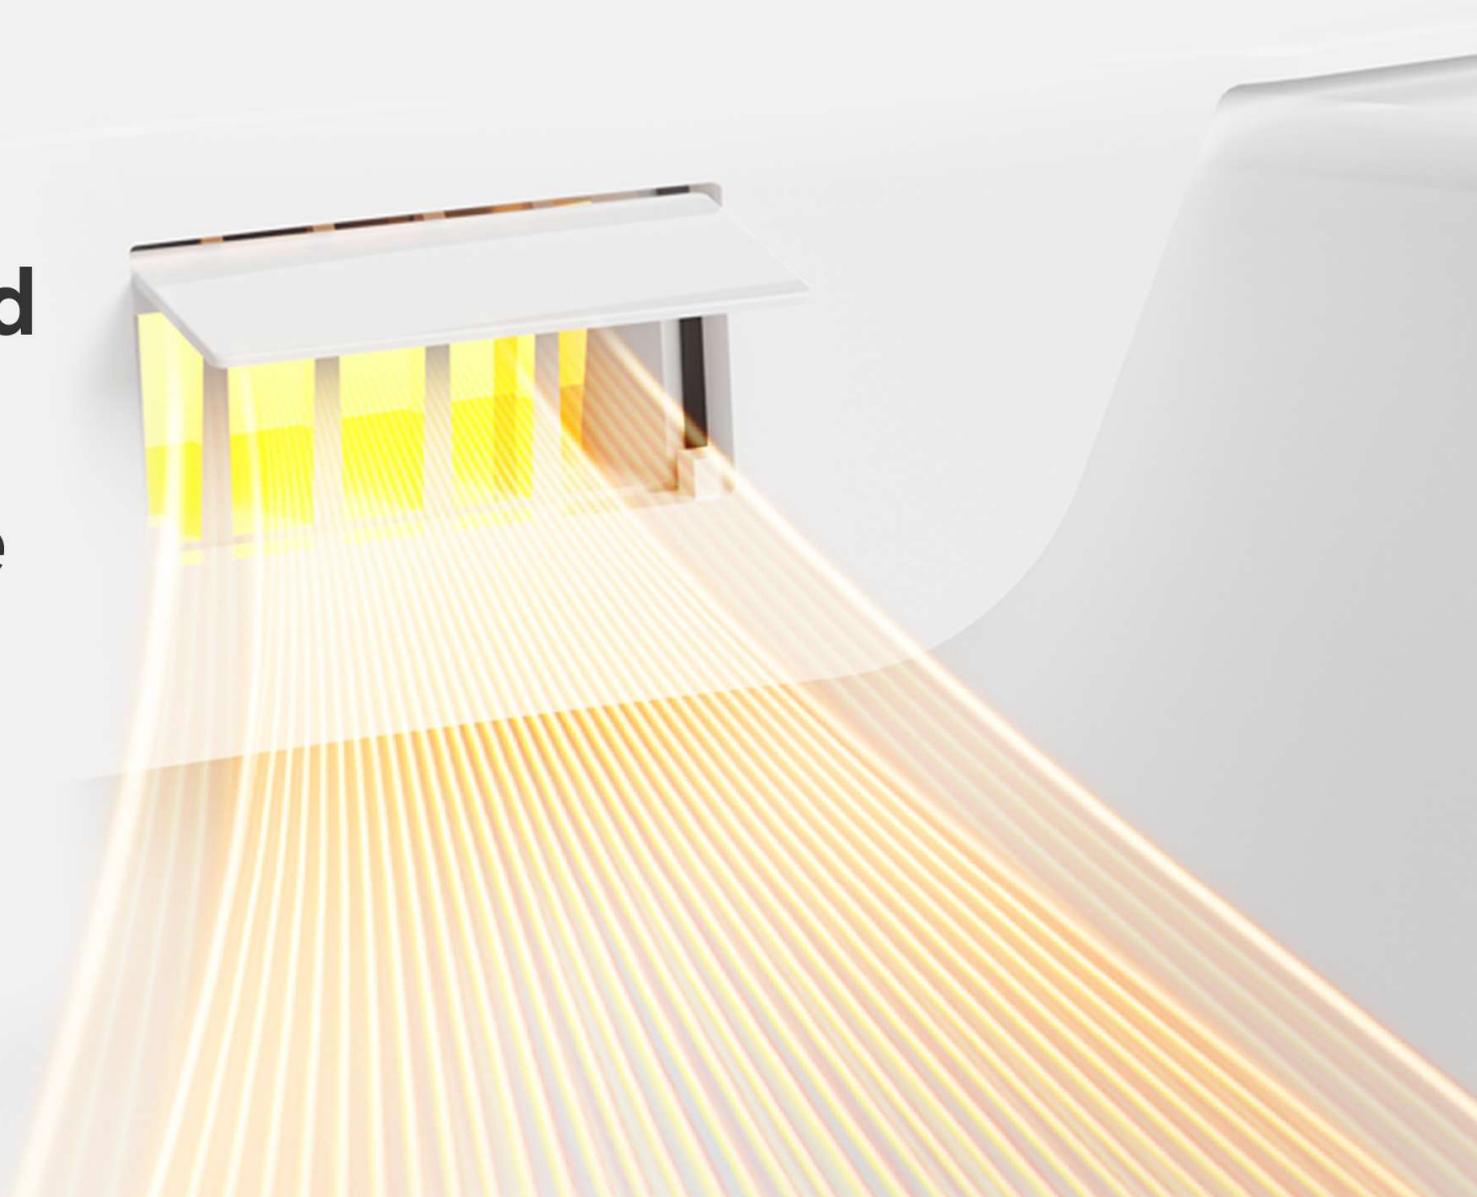

17 Wall hung smart toilet - Warm air drying

The warm wind is comfortable and makes the skin dry

After washing, enjoy the warm air drying,
and quickly dry the moisture on the skin

The blower is optimized to evenly cover
every corner of the skin.

18 Wall hung smart toilet - safety protection

Eight major protections safe and reassuring

Eight major safety protections are enabled at the same time, so you can use it without any worries.

Overheat protection

Dry burning protection

Wind temperature protection

Waterproof protection

Electric leakage protection

High voltage protection

Flame retardant material

Water temperature protection

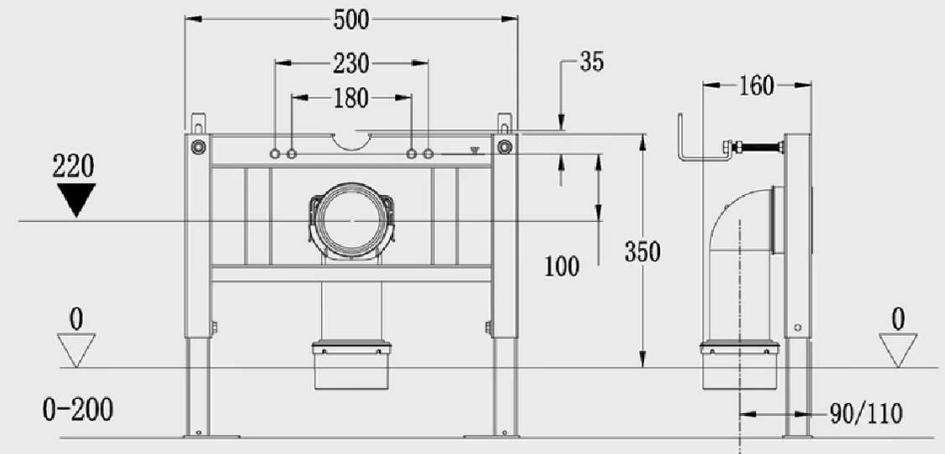

Small details of safety protection
